“ Worked beside Lester for three years. Was with him five days a week. Watched him fight off cancer and go through kemo/radiation treatments while never missing a days work the whole time. He was a tough one. He had no filter and said what was on his mind but not to be mean, that was just his way. If he said something, it was honest and the truth. He had a very caring heart for friends, family and anyone in need. He was one to do without if he thought you were in need. We ate lunch together daily and he introduced me to many great people. He loved kids and always asked how mine were doing daily. They loved cutting up with him as well when I would pick them up at school and bring them by the shop. There were people that didnt understand him due to him telling things like they are but they didnt take the time to "see"the great individual he was. I wasnt able to keep in touch with him the last seven years due to my own health issues but would always ask about him and send a message to him via Bryan Story when I would see him out and about. He was a great true human being that I have to say was one of the few people I have ever met in my life that would truly do what he said and be there for you if needed or not with no questions asked. He will be missedby myself ,my family and many others. As he said daily about many instances, "If the good Lords willing". Love you Lester, I was blessed to have met you and have you in my life the short time I did. Rest in peace brother.
